About WUSATA

The Western U.S. Agricultural Trade Association (WUSATA) is a non-profit organization aimed at increasing the export of U.S. food and agricultural products. WUSATA works closely with each state department of agriculture in the West to enhance the economic well-being of the region.

For 45 years, we have offered programs and services to assist exporters of food and agricultural products. WUSATA is funded by the USDA's Foreign Agricultural Service (FAS), dues from its member states, and administrative fees paid by private companies.

FundMatch helps eligible western U.S. food and agricultural suppliers remain competitive internationally by providing 50% cost reimbursement for eligible marketing activities. The program gives companies the ability to break into new markets, expand their existing shares, and maximize their marketing budgets to make their efforts go further. Small agribusinesses can apply now to offset future international marketing costs.

Travel Notification forms are located on the WUSATA website under "Important Forms" section.

Why is my reimbursement "Prorated?"

All activities need to include approved products from your current FundMatch Application. If you market other brands or products that are not approved, the activity will be prorated. This means that any products that are displayed or promoted will be pro-rated based on what has been approved in your Marketing Plan, WUSATA will account for all products on display at each event, including counters, banners graphics etc. This also includes discontinued and new to market products. new sizes of products, and new shapes and forms of packaging. For example, if you go to a trade show and market 4 approved products in the booth, and you also market 2 new products that do not qualify for FundMatch. The booth expense and shipping would be prorated to 4/6 of the 50% based on the approved products. You may add new product for approval at any time during the year by Signing into your My WUSATA Account.
